Payment Security

PCI-DSS Compliance

TechWiz is **PCI-DSS Level 1 certified** - the highest level of payment security:

- Annual security audits by certified assessors
- Regular vulnerability scans
- Secure payment processing infrastructure
- Employee security training

How We Protect Your Information

Card Information:

- **Never stored on our servers**
- Processed through encrypted payment gateway (Stripe)
- Tokenization used for recurring payments
- End-to-end TLS 1.3 encryption

3D Secure Verification: All card payments authenticated with 3D Secure 2.0:

- Visa: Verified by Visa
- Mastercard: Mastercard SecureCode
- American Express: SafeKey

You'll verify payments with:

- SMS code
- Biometric authentication (fingerprint, Face ID)
- Banking app approval
- Password or PIN

Fraud Detection:

- AI-powered fraud screening on every transaction
- Unusual activity flagged for manual review
- AVS (Address Verification System) checks
- CVV verification required

Secure Checkout Indicators

Look for these security signs when paying:

- 🔒 Padlock icon in browser address bar
- HTTPS in URL (not HTTP)

- "TechWiz - Secure Checkout" in browser tab
- Payment powered by Stripe badge

Payment Authorization

When Charges Occur

Standard Orders:

- Card authorized when you place order
- Charged when order ships
- If multiple items, charged as each ships
- Authorization held for up to 7 days

Pre-Orders:

- Not charged until item is in stock and ready to ship
- Email sent 3 days before charging
- Can cancel before charge without penalty

Custom Orders:

- 50% deposit charged on order placement
- Remaining 50% charged on dispatch

Authorization Holds

When you place an order:

1. We authorize the full amount
2. Your bank "holds" those funds
3. Actual charge occurs when item ships
4. Hold releases automatically if order cancelled

If authorization expires:

- Re-authorization attempted automatically
- Email sent if re-authorization fails
- Order held until payment resolved

Failed Payments

Why Payments Fail

Common reasons:

- Insufficient funds
- Card expired
- Incorrect card details entered
- 3D Secure verification failed
- Bank declined transaction (anti-fraud)

- Daily spending limit exceeded

What Happens Next

1. **Immediate Notification**: Email sent with failure reason
2. **Automatic Retry**: System retries once after 2 hours
3. **Manual Retry Window**: 48 hours to update payment
4. **Order Cancellation**: If not resolved in 48 hours

To Update Payment:

- Log into your account
- Go to "Orders" → Select order → "Update Payment"
- Enter new payment details

Refunds

Refund Processing Times

Original Payment Method	Refund Timeline
Credit/Debit Card	5-7 business days
PayPal	3-5 business days
Klarna	Installment plan adjusted immediately
Bank Transfer	7-10 business days

Note: After we process the refund, your bank may take additional 3-5 business days to credit your account.

Refund Method

- Refunds issued to **original payment method only**
- Cannot refund to different card or person
- Cannot refund via cash or check
- Cannot split refund across multiple methods

Partial Refunds

If returning only part of an order:

- Refund for returned item(s) only
- Original shipping not refunded (unless items faulty)
- Can request store credit instead of card refund

Currency and Exchange Rates

Display Currency

- All prices displayed in **British Pounds (GBP)**
- Includes VAT at 20% (where applicable)

International Orders

Card Currency Conversion:

- Your card issuer handles conversion
- Exchange rate determined by your bank
- Foreign transaction fees may apply (check with your bank)
- We have no control over conversion rates or fees

Example:

- Item price: £500 GBP
- Your bank converts at: ~$625 USD (rate varies)
- Bank's foreign transaction fee: ~$19 (3%)
- Total charge: ~$644 USD

Price Guarantees
